

Worthing Court

apartment hotel

We have created a STAY SAFE program as the health and well-being of all of our guests and team members are our first priority.

Worthing Court Apartment Hotel is an approved Government Holding hotel. Which means that if you have a reservation with us, no matter the country you are travelling from, you can come and stay at our hotel before you have your second PCR test, and then you can continue to enjoy your vacation with us!

The latest Government protocols, which went into effect on 1 October 2020, require that guests awaiting the results of their second test will have some restrictions after arrival at the hotel, to ensure the well-being of other guests and our team members, our hotel protocols are as follows:

- Before you check in we have created an express check-in form to ease the check in process.

[Express Check-In Form](#)

- Once you have checked in you must quarantine in your room until your second negative PCR test result is received. You would therefore not have access to our pool, restaurant and reception office during this period.
- While you stay in your room during this time we are here at your service! If you need any items/supplies, please contact us at the front desk and we would be happy to accommodate your requests!
- Visitors are not allowed in your room during this period and our housekeeping service will be limited during this time.
- The restaurant on property - is open for breakfast, lunch, and dinner upon request, and you can call from your room and order anything off their menu.
- There are also many online delivery platforms to order food - such as Hopscotch <https://www.hopscotchfetch.com>
Agent Eat <https://www.agenteat.com/viewAllRestaurant>
- Remember to travel with a thermometer! You will be required to check your temperature twice daily and record it on the sheet provided when you arrive at the airport.
- A representative from the Ministry of Health will check on you periodically by calling or visiting your room. They would also guide you as to where you can go to get your second PCR test and how to get there.
- Private Testing is available at Worthing Court Apartment Hotel, for an additional fee.
- Once you receive your negative test result from the Ministry of Health, they would contact you and our team at the front desk and can then leave your room and have full access to our hotel and explore our beautiful island!

Our goal at Worthing Court Apartment Hotel is to ensure that we keep everyone safe and your cooperation is very important. On behalf of the entire team at Worthing Court Apartment Hotel, we look forward to welcoming you to our hotel!
